Forecast for Friday 05 Aug 2022

Weather:

Partly cloudy with clear spells through the early hours, with isolated showers expected to continue into Friday morning, before petering out by mid-afternoon. There's a chance of the odd heavier shower throughout this time. Into the afternoon cloud will continue to break up, leaving lengthy spells of sunshine. Staying similar into the evening.

Chance of cloud-free hill tops above 800m: 30% becoming 90% from mid-afternoon.

Low Cloud and visibility: Periods of cloud above 800m, with occasional patchy cloud above 600m associated with showers. All cloud lifting above summits from mid-afternoon. Generally excellent visibilities, with very good air clarity allowing distant hills to be clearly visible. Very poor visibility within cloud and temporary brief reductions within showers.

Meteorologist's View

It will feel a little fresher than of late, so it may feel cooler than expected in the breeze or towards the summits – extra clothing may be required. Into the afternoon, there will be plenty of sunshine so sun protection will be required.

Forecast for Saturday 06 Aug 2022

Weather: Mostly dry through the early hours of Saturday with clear spells and remaining largely dry throughout the day with sunny periods and patchy cloud. Becoming cloudier into the evening.

Maximum wind: North-westerly 10 to 15 mph.

Chance of cloud-free hill tops above 800m: 90%

Low Cloud and visibility: A little mist may develop during the early hours. There will also be isolated patches of cloud above 900m. Visibilities will largely be excellent, although poor in mist and very poor in cloud.

Temperature: **Valleys:** Plus 9 Celsius rising to plus 18 Celsius

At 800m: Plus 6 Celsius to plus 12 Celsius

Freezing level: Well above summits.
